Let's discuss first thing in the morning. I'm not sure that I understand the legend; for instance, several houses have had their assessments completed, oil was observed externally, and work has begun, but I'm not sure how the map is supposed to portray can portray all 3 of those as is.

We'll also double-check whether there are 5 houses w/ indoor oil observed. Not sure that this is accurate, but I may be forgetting what we observed....

Thx, -keith

All - we need to discuss this map tomorrow. This is not what I have been reporting out.

Do we think this is accurate?
